*Theme: **Renovation of State management of private sector development in trade in Phu Tho province***
Major: Economic Management *Code:* 62.34.04.10
Academic Supervisor: Assoc. Prof. Dr. Dinh Van Thanh
Training institution: Central Institute for Economic Management (CIEM)

SUMMARY OF NEW FINDINGS OF THE THESIS

- *Theoretical contributions:* The thesis has synthesized and supplement a theoretical foundation on state management renovation of private sector development in the trading sector. In particular, based on the theory of state management, the thesis has clearly defined the content of the concept, clearly interpreted the role of state management of private sector development in the field of trade.

- *Empirical and policy contributions:* The thesis has comprehensively analyzed and evaluated the achieved results, the constraints and explanatory reasons of state management of private sector development in the field of trade in Phu Tho province, proposed a number of viewpoints, orientations and a package of measures in order to improve state management of private sector development in the field of trade in Phu Tho province in coming years.

The thesis has provided 7 groups of new and feasible measures to address the urgent and long-term problems, suitable with the development context of Phu Tho Province. These groups of measures are also a good reference in the state management of private sector development in the field of trade.
