**SUMMARY OF NEW CONTRIBUTIONS OF THE THESIS**

**1. New theoretical contributions**

At the provincial level, the theoretical framework for industry restructuring has been systematized and developed to appropriate the processing and manufacturing industry. The definition, content, influencing variables, and evaluation criteria for restructuring the processing and manufacturing industry at the provincial level have all been made clearer by this approach.

**2. New practical contributions**

1) The thesis assesses the current state of the processing and manufacturing industry restructuring in Hai Phong City are from three structural aspects: the structure by sub-sectors, the structure by region, and the structure by economic sector.

2) Factors affecting the restructuring of the processing and manufacturing industry in Hai Phong City are assessed in depth of the city government's role, as this is a decisive aspect in the restructuring of the city's economic sector.

3) The Prime Minister recently approved the proposed solutions for restructuring Hai Phong City's processing and manufacturing sector. These solutions are linked to the orientation and content of the planning of the Red River Delta and Hai Phong City for the period up to 2030, with a vision to 2050.
